

	Z15	<i>Emergency Medical Services Branch</i>
	2015-09-22	<b>Controlled Substances</b>

Some delegated advanced skills carried out by EMS personnel involve the use of controlled substances. Use and storage of these substances in health care settings are monitored closely according to federal and provincial regulations.

EMS services must operate according to their respective regions controlled substances policies, which must be consistent with established provincial and federal legislation.

EMS services not-affiliated with a region must have policies which are consistent with established provincial and federal legislation.
