ADDITIONAL ASSISTANCE

If you will not be able to complete this year of study without additional assistance, complete the attached APPLICANT'S CASH FLOW form and return it with all required documentation. Once you have provided our office with the completed form and all required documentation, we will review it and make a decision regarding additional assistance.

If your shortfall is as a result of a change in your situation, such as increased courseload or a reduction in your income, there is no need to complete this specific form. Simply provide a signed letter requesting that your file be reassessed and the reason for the request, along with documentation to support your request.

Funds issued based on a cash flow are limited to a maximum of \$3333.00 and can only be issued **once** per academic lifetime.

All information you and your family provide to Manitoba Student Aid is subject to verification and audit.

Information must be received no later than two months before your study period ends; otherwise your application cannot be processed. Manitoba Student Aid may request additional documentation to support the claims made.

Once the required information is received, Manitoba Student Aid will continue processing your application. Processing may take up to five weeks. Funds cannot be released after your study period end date.

Student Advisors are available to work with applicants who have student aid concerns due to family breakdown, budgeting, debt repayment and related issues.
