

Competitive Fishing Event License Return Form

As the number of fishing derbies and tournaments in Manitoba continues to grow, it is becoming increasingly important to collect basic information for these events. Data regarding the size and location of the event, fees charged, number of fish entered, economics of these events and other relevant data is important. Organizer(s) must complete the return form to assist in the management of our fisheries. If not completed and returned, licences for future CFE's may be withheld until completed return forms are submitted.
